Inspired by the coldness of the night, **Macrowave** explores themes of evanescence and eternity through a dark and intense musicality.

Following the release of their debut album "Ultimatum" and several EPs since late 2020, the band brings to the stage their universe with icy tones, blending the ferocity of rock with the precision of electronics, in a bass/keyboard and drum duo.

The result is a futuristic, brutal, and cinematic sonic and visual aesthetic, offering audiences an immersive experience that transcends the boundaries of the conventional.

Music Composition / Production, Keyboard, Bass: Killian Ebel
Drums: Aurélien Knaub

Album

"A fresh and exciting mix of glitch, darksynth and retrowave. Stirring compositions with impeccable sound design."

"Le projet français Macrowave avec une monumentale composition électronique instrumentale qui rappelle Jon Hopkins, Rival Consoles et Kiasmos pour ne nommer que ces derniers. Cette stimulante pièce hautement progressive est entraînante et redoutablement atmosphérique."
